

Dear Parents

Assessment For Your Child - Spring Term: Year One- Year Six

In line with government requirements, we are now operating a system of assessment without levels for all our children. The school has developed a personalised assessment system which meets the needs of the children and teachers alike. This is becoming embedded across the school and used daily and termly to assess children's learning.

The majority of assessment for your child is daily using the national curriculum, through the work they have completed. Where children have experienced success, they are moved forward, where they are struggling further opportunities to progress are provided. You will see evidence of this in your children's books through teachers marking (in green) and children's reviewing (in purple). Each term children are assessed formally from which teachers plan intervention for children who maybe falling behind or for those who need to be further challenged. This maybe more regular for Y6 children in preparation for national tests. The leadership team discuss with staff how well children are doing and support teachers to enable children to achieve well.

Further information regarding the school system in place can be downloaded from the school's website www.bramleygrangeprimary.co.uk. The document can be found under 'Latest News Assessment without Levels'.

Please note, at parent's evening, teachers will explain using the children's work, **what your child can do, what they need to do next and how you can support them at home**. They will also show **where your child has made progress** and discuss areas of concern around progress again **drawing on your child's work**. Please do not ask teacher's for 'levels' (these no longer exist) or 'bands'. As per Autumn Term, please **do not expect** to be given graphs showing achievements and progress or assessment materials showing what they need to achieve as in previous years. This is because these material relate to the 'levels' system no longer in operation.

In the **SUMMER TERM** teachers will report whether your child is achieving above, in line or below age related expectations.

Please be assured where your child is achieving and progressing well, they will be encouraged to continue, just as if your child is not progressing or achieving as well as the school believes they are capable, they will be subject to an intervention plan which will be monitored closely monitored by leadership to ensure accelerated progress over the following weeks. We do believe and ensure every child should progress and achieve well during their time at Bramley Grange.

Yours Sincerley

Rachel Colquhoun
